# REWORKS STUDIO

## CAPABILITIES & SERVICES DECK

**FOUNDERS:**

Rishi Yadav & Navdeep Bhardwaj

**STUDIO CORE:**

India-based Digital & Creative Design Engine

**WEB PORTAL:**

www.reworksstudio.in

# WHAT WE BUILD

A multi-disciplinary design and dev team engineering elite digital experiences.

---

## 01. UI/UX Design & Art Direction

Crafting premium user interfaces, high-contrast aesthetics, custom typography, and dynamic layouts. Featured products like Baemark and Chadni Resorts showcase our emphasis on sleek flow and product clarity.

## 02. Next.js & Frontend Engineering

Developing supercharged single-page apps, static websites, and serverless APIs with Next.js and React. Built robust vendor sync systems like Smart Plaza and catalog hubs like Om Garments.

## 03. Intelligent AI Agents & SaaS Platforms

Deploying LLM-driven architectures (Llama-3, GPT-4) and vector search nodes (Qdrant). Key frameworks include ReviewBoost AI (sentiment response agent) and Orbis Design Compiler (screenshot to Next.js translator).

## 04. Clinical Database & Training Architectures

Engineering HIPAA-compliant tracking systems (Goyal Netra), telemetry registry nodes (STEM Labs IoT console), and course batching portals (GICE Academy).

### STUDIO STORY

Founded by Rishi Yadav and later joined by Navdeep Bhardwaj, Reworks Studio has evolved from a local creative studio in India to a robust team of designers, visual architects, and developers. We build production-ready digital products that communicate, connect, and scale.
